New Horizons Software Celebrates 20 Years of Excellence with Special Offer for Orthodontists Across the U.S.

VANCOUVER, WA (February 5, 2008) – [New Horizons Software, Inc.](http://www.NHSoftware.com), developer of the OrthoExec® Advanced Series and other orthodontic practice management software solutions, is celebrating 20 years of making practice management easy for orthodontists across North America.

"We've been happy with New Horizons from the get-go," says Edward J. Hilton, DMD of Hilton-Diminick Orthodontic Associates in Harrisburg and Camp Hill, Pennsylvania – a New Horizons client for the past 18 years. "We've been with them since we made the big jump from the appointment book to the computer, and we've never looked back. It's been an excellent progression through time – they've changed pace with the changing computer world every step of the way, and I have to tell you, they've made our lives easier. Every transition has been smooth and lets us take advantage of every latest development. They're the kind of company that if you come up with an idea, they will expand on it and make it work for you. They're very receptive and always supportive."

New Horizons Software (NHS) is celebrating its 20 years of excellence, innovation, and reliability in orthodontic practice management software and solutions with a special offer: all new users who purchase the Ortho Exec Advanced Series software are eligible to receive 10% off the regular price. For details, call NHS at 1-800-543-5999 or visit www.NHSoftware.com.

"A lot has changed over the last 20 years," says Joretta Beanland, NHS President. "As technology has grown and developed, so have we – for the last two decades, we've been on the leading edge of the best in orthodontic practice management solutions. But what hasn't changed is our commitment. We built our reputation on personal service and that continues today. Our core goal is to make life easier and more productive for orthodontists and their staffs, and that's what we do."

About New Horizons Software

New Horizons Software, Inc., a leading provider of orthodontic practice management software solutions, has provided comprehensive practice management software and personalized training and support to the orthodontic community since 1988.

Orthodontic practices across North America turn to New Horizons Software to help them simplify daily tasks, reduce costs, and boost staff productivity. Contact NHS at 1-800-543-5999 or visit www.NHSoftware.com.
